

Dr. Bassleer Biofish Food *professional care* and *professional treat*

Dr. Bassleer Biofish Food *professional care* and *professional treat* are complete foods intended specifically for the commercial breeding and farming of ornamental fish. The ingredients are tailored precisely to commercial aquaculture conditions for the rearing of ornamental fish.

Dr. Bassleer Biofish Food *professional care* contains natural immune function boosters, such as Brazilian açai berries, glucan, algae extracts, citrus pulp, and the freshwater algae *Chlorella pyrenoidosa*. It is rich in carotenoids, antioxidants, vitamins and minerals. Dr. Bassleer Biofish Food *professional care* guarantees successful breeding, prepares the fish for transportation, and aids their acclimatisation during quarantine.

Dr. Bassleer Biofish Food *professional treat* aids the recovery of ornamental fish during and after medical treatment. The product contains fresh garlic, which is rich in allicin and manganese, and the added value of peppermint, thyme, mugwort and chickweed. These herbs strengthen the defences and power of resistance of the ornamental fish and therefore help to keep the fish healthy. Emaciated fish quickly regain weight.

Dr. Bassleer Biofish Food *professional care* - Complete Food for ornamental fish, reg. no. BE6237 **Feeding recommendation:** Restrict the quantity of feed to the amount ingested by all the fish in a few minutes. **Ingredients:** Fish and fish by-products, grain, oils and fats, vegetable by-products, yeasts, algae (*Chlorella pyrenoidosa*, 5 %), açai berries (4 %), **Additives:** Vitamins: Vitamin A 17000 IU/kg, Vitamin D3 3000 IU/kg, Vitamin C 250 mg/kg, Vitamin E 400 mg/kg, **Analysis:** Crude protein 52 %, crude fat 12 %, crude ash 11 %, crude fiber 10 %, moisture content 5 %
